REPORT OF UNIDENTIFIED FLYING OBJECT

1. Details of Person reporting incident:

- a. Name: Mr **Section 40**
- b. Address: **Section 40**  
Sutton-in-Ashfield
- c. Nearest Town: Mansfield
- d. Telephone Number: Mansfield **Section 40**

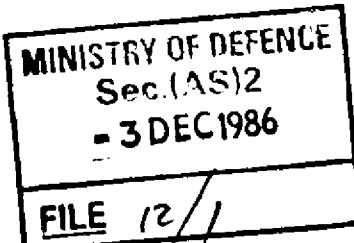

2. Details of Incident:

- a. Date 17 Oct 86
- b. Time: Approx 2230
- c. Were a/c Involved: Yes one jet, type unknown
- d. Height N/K

3. Full details of incident: Mr **Section 40** saw what appeared to be a jet aircraft and following in its wake was a bright mushroom shaped object. The jet flew on but the object hovered over Pixton Village about 8 miles from Mansfield. The object was glowing and eventually flashed away into the distance at great speed.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	18 Nov 86, 0300Z for about 5 minutes
B.	Description of Object (No of objects, size, shape, colour, brightness)	1 object, Ball of bright light
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	Observer in a car which was moving
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Naked eye.
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	In the ceiling, about 35 degrees from North. Positioned in S after 2 mins located, about 45 degrees from ENE.
F.	Angle of Sight (Estimated heights are unreliable)	" None given
G.	Distance (By reference to a known landmark)	None given
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Up, up, E
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Six night.
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	On main road between "Grainger and "Loch End

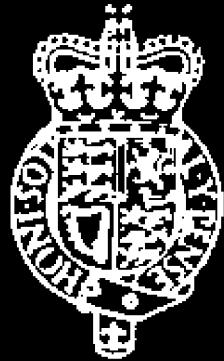

L. To whom reported (Police, military, press etc)	Section 40 Sgt Alexander	Operations
M. Name & Address of Informant	Section 40 Ballynahinch, Co. Down	Section 40
N. Background of Informant that may be volunteered	None given	
O. Other Witnesses	None given	
P. Date, Time of Receipt	20 Nov 1350Z Delay because she didn't think that she would be believed	
Q. Any Unusual Meteorological Conditions	No	
R. Remarks	Witness sound calm and sensible.

## REPORT ON UNIDENTIFIED FLYING OBJECT

Date, Time and  
Duration of Sighting

12TH NOVEMBER, 1986 0105Z

(1) 5 seconds (2) 7 seconds

229

Description of Object (1) Glow of 3 small 'triangular' lights. Dull orange  
in colour.

(2) Group of 5 small dull orange lights, triangular shaped.

Exact Position of outside kitchen door of house in SPRINGBURN, Glasgow  
Observer

How Observed naked eye.

Direction in Which (1) to North, near "The Plough"  
Object was First Seen (2) Overhead.Angular Elevation of (1) approx 65°  
Object (2) approx 90°Distance Of Object unknown ("very high")  
from ObserverMovements of Object all headed north and rapidly changed formation  
moving very quickly.Meteorological Conditions Clear, starlit, small amount of distant  
During Observations cloud.

Nearby Objects Trees, 40 feet high, 150 feet distant.

To Whom Reported ATC Supervisor, (Section 40), CAA/NATS,  
Glasgow Airport.Name and Address of Mrs [REDACTED]  
Informant [REDACTED] Section 40, SPRINGBURN, GLASGOW.  
Tel: [REDACTED] Section 40Any background Information Had drunk only cocoa. Both "stunned" by what  
that may be Volunteered they had seen. Had to tell someone. Police  
referred them to ATC. No sound. Not like aircraft.Other witnesses Husband: [REDACTED] Said "not Aurora Borealis,  
meteors, military aircraft or like civil aircraft they have seen."Date and Title of Receipt 12th Nov. 1986.  
of Report Section 40 ATC Supervisor.To: The Ministry of Defence (AFOR)  
Royal Air Force

Whitehall  
LONDON SW 1Phone: AIS Military  
LATCC 7 NOV 1986

AIR FORCE OPERATION

P TO

MINISTRY OF DEFENCE

The observers seemed genuine to me. They seem to have seen something which they consider very unusual.  
Scottish military had no record of any military aircraft activity.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A Date, time and duration of sighting (Local times to be quoted)

9~~th~~ AUG 1950

B Description of object (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Object with no wings. Flying, extremely bright/white light.

C Exact position observer (Geographical location. Indoors or outdoors. Stationary or moving).

In garden at home (Leyfield).

D How observed (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye.

E Direction in which object was first seen (A landmark may be more useful than a badly estimated bearing).

Over head.

F Angle of sight (Estimated heights are unreliable).

G Distance (By reference to a known landmark wherever possible).

H Movements (Changes in E, F and G may be of more use than estimates of course and speed).

Disappeared straight upwards

J Meteorological conditions during observations (Moving clouds, haze, mist etc).

Heavy cloud.

K Nearby objects (Telephone lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

REPORT OF AN UNIDENTIFIED FLYING OBJECT

- A. Date, Time and Duration of Sightings. (Local Times to be Quoted)

16 JULY 86 1230L FOR 30 SECS.

- B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell etc).

LOOKED LIKE A TAIL PLANE WITH LARGE GREEN LIGHT ON IT. DARK GREY. SMALL. (PART OF A WING?)

- C. Exact Position Observer. (Geographical location. Indoors or outdoors. Stationary or moving).

OVER WASHINGBORO' CLIFFORD REPORT LYING IN BACK GARDEN.

Section 40

WASHINGBORO'

- D. How Observed. (Naked eye, binoculars, other optical device, still or movie camera).

NAKED EYE

- E. Direction in which Object was First Seen. (A landmark may be more useful than a badly estimated bearing).

FROM WASHINGTON

HEADING TOWARDS EAST OF LINCOLN.

- F. Angle of Sight. (Estimated heights are unreliable).

ABOUT 500'

- G. Distance. (By reference to a known landmark wherever possible).

OVER NEIGHBOURS HOUSE.

- H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

NOT MUCH IN DIRECTION BUT HIGH SPEED.

- I. Meteorological Conditions during Observations. (Moving clouds, haze, etc).

CLEAR

J. Nearby Objects. (Telephone lines; high voltage lines; reservoir, lake swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

NOTHING SEEN IN THE CLOUDS.

K. To Whom Reported. (Police, military organisation, the press etc).

OPERATIONS.

ANNEX A TO  
SOP 502

## REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	102300Z Jul 86
B.	Description of Object (No of objects, size, shape, colour, brightness)	Orange Sphere
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	Stockwell, S London out of doors
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Naked eye
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	NE of Stockwell
F.	Angle of Sight (Estimated heights are unreliable)	Not given; Height given as 200' above
G.	Distance (By reference to a known landmark)	Not given
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Moved rapidly from NE of Stockwell to SW
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Sky clear, good visibility
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Non except housing

L. To whom reported (Police, military, press etc) RAF Duty Officer

M. Name & Address of Informant Mr [REDACTED] Section 40  
[REDACTED]  
[REDACTED] Section 40  
London [REDACTED] Section 40

N. Background of Informant that may be volunteered Not given

O. Other Witnesses Friend

P. Date, Time of Receipt 102350Z Jul 86

G. Any Unusual Meteorological Conditions No

R. Remarks

-----

The information was taken quickly as the informant was phoning by card and he had no contact number. It is likely that all of the information above was given to Mr Morren by a friend who was very shaken. Mr Morren would like to know of any outcome.

## Centralia S. P. Report

Very good condition.

Fence line

Excellent condition, some slight damage.

Fence - RUST - PARTS MISSING

TO - FRAGILE - ETC.

Very good condition

Size 2 ft

SUMMARY: Condition of fence line

Excellent condition throughout

The fence line is in excellent condition. The fence posts are well spaced and the rails are straight. There is no damage to the fence line. The fence line is well maintained and appears to be in good condition.

Condition of the ground

Good condition

Soil - DRY - FERTILE - GOOD - SOIL

Condition of trees

Good condition, trees are well spaced and appear to be healthy.

Condition of shrubs and bushes

Good condition, bushes are well spaced

Condition of grass and weeds

The grass and weeds are sparse and appear to be well maintained. The grass is dry and brown.

Condition of drainage system

Good condition

Condition of irrigation system

Good condition

Land location

F

Land - 2 - Good condition, well drained, no water problems.

Land - 1 - RUST (F)

Land - 1 - GOOD (F)

Land - 1 - GOOD (F)

Land - 2 - RUST (F)

UNIDENTIFIED FLYING OBJECT

181

- A. **Date, Time and Duration of Sighting**  
12th May 1986 between 0830 - 0900 for approx. one minute
- B. **Description of Object**  
Circular shaped with a short tail. Very bright white light. No sound or smell.
- C. **Exact Position of Observer**  
Mrs. **Section 40** lives in Brockenhurst and was facing toward Lymington at the time (south) stationary.
- D. **How Observed**  
Naked eye
- E. **Direction in which Object was First Seen**  
Moving East-West
- F. **Angular Elevation of Object**  
Could not be sure but thinks between 30 - 40 above the horizon
- G. **Distance of Object from Observer**  
Unsure but would estimate within 5 miles
- H. **Movements of Object**  
Moving East-West at first, then stationary and moved off again in similar direction.
- J. **Meteorological Conditions During Observations**  
Good visibility, quite windy patchy cloud weather report for Southampton timed at southwesterly 12 kts 10km+ 6 cu 1600'
- K. **Nearby Objects**  
None
- L. **To Whom Reported**  
At first to local Police then reported to Eastleigh Police and to ATC unit at Southampton the next morning.
- M. **Name and Address of Informant**  
Mrs. **Section 40** [REDACTED] Brockenhurst, Hants.  
Tel. Lymington **Section 40**
- N. **Any Background Information on the Informant that may be Volunteered**  
None available
- O. **Other Witnesses**  
None
- P. **Date and Time of Receipt of Report**  
13th May 1986 0925 hrs. (local)

UNIDENTIFIED FLYING OBJECTS - CENTRAL TELEVISION INTERVIEW

1. My staff spoke to you on Friday evening about a request from Central Television to conduct an interview with a member of MOD, preferably a Minister, for inclusion in a 45 minute piece on UFOs which they propose screening in "Central Weekend", a 1 1/2 hour current affairs programme shown on Sundays in the Central TV area. The producers are, as yet, unsure of the actual date of the broadcast. We promised to let you have fuller information about the programme when it was to hand.

2. The programme will be based on a series of interviews interspersed with film, taken from public roads, of some MOD establishments which are assumed to be of significance in UFO circles. Interviewees will include Lord Hill-Norton and an ex-MOD employee Mr C T Withers, who worked at Boscombe Down during the 1950's and who claims to have seen a UFO in 1952. You may wish to note that, because of his official status at the time, Mr Withers has been in touch with this office, independently, about taking part in the programme. We have advised him that, as a private citizen, the decision to take part must be his own but that the MOD would have no objection to him doing so.

3. The proposed interview with Minister(DS) would last perhaps 15 minutes which, when edited, will provide 2-3 minutes of TV time. The interview would take the form of specific questions upon which we would, of course, provide briefing. The questions are expected to include: our explanation of the strange phenomena which occur in the sky; the seriousness with which MOD treats reports of incidents; whether MOD is the sole authority in Whitehall which receives reports or whether they are passed on to another more clandestine organisation; and the incident in December 1980 at RAF Woodbridge. Central Television have indicated that the interview can take place at Minister's convenience but they would preferably wish it to be within a fortnight.

4. We have sought the views of CPR's organisation on this topic and they recommend Minister should take part. To refuse to do so would only add to speculation that the MOD has something to hide on this particularly emotive subject.

5. I would be grateful to know if Minister(DS) is content with the proposal that he should appear on the programme.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

CON 31/5/Air

A. Date, Time and Duration of Sighting. (Local times to be quoted).

10 May 67 1100 hrs. approx. 1 minute approx.

B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Object appeared as number of light as follows;

- a. 1 very bright light.
- b. 2 very faint lights.
- c. 1 possible bare skinning light.

C. Exact Position Observer. (Geographical location. Indoors or outdoors, stationary or moving).

(Indoor) From a window looking out. The COFFEE is the centre of my room and moving towards window on the floor. On the left wall is a small mirror.

D. How Observed. (Naked eye, binoculars, other optical device, still or movie camera). Naked eye and open window, later through rear window of living room.

E. Direction in which Object was first seen. (A landmark may be more useful than a badly estimated bearing).

Right ahead of me above a tree about 10 meters from me.

F. Angle of Sight. (Estimated heights are unreliable).

approx 70°

G. Distance. (By reference to a known landmark wherever possible).

unable to judge.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

No movement of object discernable.

J. Meteorological Conditions during Observations. (Moving clouds, haze, mist, etc).

Very clear.

K. Nearby Objects. (Telephones lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

None mentioned at K above

L. To Whom Reported. (Police, Military organisations, the Press etc.).

SAC MTF Section 40

M. Name and Address of Informant.

**Section 40**

Clayton

Norwich **Section 40**

N. Any Background on the Informant that may be volunteered.

Returned to scene with family approx 5 mins later. No comment further sighting.

O. Other Witnesses.

No one known.

P. Date and Time of Receipt of Report.

26 Feb 74 1040 hrs

Q. Is a Reply requested?

No.

SAC MTF It J Smith added the following comments.

1. The telephone conversation lasted approx 50 mins.
2. The informant sounded excited and nervous throughout the conversation.
3. Whilst vague on some points of the sighting; the informant was consistent on many of the others which were referred to several times.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	17 Jan 1980 hrs for about 5 minutes
B. Description of Object (No of objects, size, shape, colour, brightness)	Big red glow. changed direction, like a tail of comet red flame across sky. Ufo shape front flatish white before disappearing in cloud
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	3 School Lane, Irchester, Northants Indoor. Stationary
D. How Observed (naked eye, binoculars, other optical device, still or movie)	Through binoculars. 10x50
E. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Coming from Bedford way then turned towards Newport Pagnell.
F. Angle of Sight (Estimated heights are unreliable)	20 or 30° elevation
G. Distance (By reference to a known landmark)	2 to 3 miles
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	See para E
J. Met Conditions during Observations (Moving clouds, haze, mist etc)	Clouds about, no rain or mist
K. Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	No.

L.	To whom reported (Police, military, press etc)	AFOps Duty Number from Police
M.	Name & Address of Informant	Section 40
N.	Background of Informant that may be volunteered	15yrs, in 5th year of Senior School
O.	Other Witnesses	Mother and Sister 13yrs
P.	Date, Time of Receipt	1600 hrs on 17 Jan 86
Q.	Any Unusual Meteorological Conditions	None.
R.	<u>Remarks</u>	The witness seemed to be a very sensible, level headed young lady.

12th December, 1985

SEC(AS)2a

UNUSUAL SIGHTING ANDOVER AREA

Reference: D/Sec(AS)12/3 dated 4 October 1985

1. Thank you for the reference and the enclosed photographs which are returned.
2. We have looked with interest at the photographs and the AAC report. Certainly something unusual has happened but just what remains a mystery. From a purely defence viewpoint I do not think that there is anything in the report to worry us. There does not appear to be a landing as such since the wheat is only depressed (not completely flattened) there are no tracks in the wheat and there does not appear to be burn or scorch marks which could indicate that some type of combustion engine. Furthermore there has been no evidence of any unusual sightings in the area just before the depressions were discovered.
3. Nevertheless something unusual has occurred; I lean to some kind of natural phenomena such as minitornadoes bouncing off the ground. However, the theory does not account for the regular configuration - perhaps the most unusual feature.

## REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time and Duration of Sighting.

Monday 28 Oct 85 at 1803 hrs duration of approx 3 - 5 mts

B. Description of Object.

Circular base rising to an apex, similar to an Apollo reentry module. There was a bright light surrounded by little red lights. There was no sound.

C. Exact Position Observer. The bright light went off at one point.

In Barnsley Town Centre

D. How Observed.

Naked eye in the open air.

E. Direction in which Object was first seen.

Overhead Barnsley Town Centre

F. Angle of sight.

Low

G. Distance.

Estimated 300 yds

H. Movements.

Craft stopped over town. It rotated, tilted then shot off. It stopped again some distance away then finally shot off at great speed.

J. Meteorological conditions during observation.

Cold with a little cloud. Moon was visible.

K. Nearby objects.

Terrace housing.

L. To whom reported.

Barnsley Police and RAF Finningley.

M. Name and Address of informant.

Section 40

N. Any background on the informant that may be volunteered.

no

O. Other witnesses.

Mr Section 40 aged 23 yrs of the same address.

P. Date and time of receipt of report. Also a friend of Section 40

Wednesday 30 Oct 85 at 1630 hrs.

Q. Is a reply requested.

Mr Section 40 would like to know if it could have been a UFO or a helicopter.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time and Duration of Sighting.

3 NOV 85 1730 hrs. Sighting lasted a few minutes.

B. Description of Object.

A Bright Amber light in the sky.

C. Exact Position Observer.

Upstairs in house, address as below. The person saw the light through the window, then she went downstairs and went outside.

D. How Observed.

Naked eye.

E. Direction in which Object was first seen.

Town of Bentley direction.

F. Angle of sight.

Low to Medium height.

G. Distance.

Cannot estimate.

H. Movements.

Light was stationary. It then moved slowly a couple of times. It then zoomed off,

J. Meteorological conditions during observation.

Cloudy sky. Quite cold. No stars or moon visible.

K. Nearby objects.

None.

L. To whom reported. RAF Finningley.

M. Name and Address of informant.

## REVIEW OF LITERATURE

and the first two years.

RESULTS

### 1. INFLUENCE OF THE PRACTICE

The first question is:

Does the practice have an influence?

It is difficult to answer.

It depends

on the type of practice.

On the one hand, there is the individual

and on the other, there is the group.

The individual practice has a greater influence than the group practice, because the individual practice is more likely to be influenced by the personal beliefs and values of the physician.

The group practice

has a smaller influence.

It is difficult to say

why this is so.

It may be

because the group practice

is more likely to be influenced by the

other physicians in the group.

It is also difficult to say why the individual practice has a greater influence.

It may be because the individual physician is more likely to be influenced by his own personal beliefs and values.

It may be

because the individual physician is more likely to be influenced by the other physicians in the group.

It may be

that the individual physician is more likely to be influenced by the other physicians in the group.

It is also difficult to say why the group practice has a smaller influence.

It may be because the group practice

is more likely to be influenced by the

other physicians in the group.

It may be

because the group practice

is more likely to be influenced by the

other physicians in the group.

It may be

because the group practice

is more likely to be influenced by the

other physicians in the group.

It may be

because the group practice

is more likely to be influenced by the

other physicians in the group.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

97

- A. Date, time and duration of sighting. (Local times to be quoted).

19 October 11.30 pm until 20 October 3.00 am

- B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Large number of objects, various sizes and shapes in many colours.

- C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

Bisley range.

- D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye, binoculars, telescope.

- E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

Overhead

- F. Angle of sight. (Estimated heights are unreliable).

Observer suggests a possible height of 60,000 ft, but difficult to assess.

- G. Distance. (By reference to a known landmark wherever possible).

N/Known

- H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Described as "many objects giving an aerobatic display"

~~SECRET DEFENCE INFORMATION NOT TO EXTERIOR~~

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Clear blue, no wind, 30° C. 100% RH

UNIDENTIFIED FLYING OBJECTS - MEETING WITH LORD HILL-NORTON:  
THURSDAY 10 OCTOBER 1985

You were very kindly present when Lord Trefgarne met Lord Hill-Norton at 11 am at JKLF on Thursday 10 October to discuss Unidentified Flying Objects.

Lord Trefgarne opened the discussion by explaining that there was a central secretariat within the Ministry of Defence, part of whose responsibility was to act as a focal point for the report of unidentified sightings. Their task was to consider whether there were any defence implications from such reports.

Lord Hill-Norton emphasised that he believed quite sincerely that there was a problem of UFOs. He had considered for a number of years that the MOD's response to reported sightings had been unsatisfactory.

Specifically he cited the incident at Woodbridge in 1960 and criticised the alleged refusal by MOD to acknowledge the presence of Lieutenant Colonel Haist's report for 2½ years. He referred to a number of papers released in the United States under the Freedom of Information Act which had been carefully examined in the United States, and which he considered would be of interest to the MOD. He also referred to a book due to be published shortly which is anticipated to be critical of the MOD in this area.

Lord Trefgarne repeated that none of the reported sightings examined had proved to have any defence implications. He did not wish to appear unhelpful, however, and he undertook to consider whether any steps could be taken to allay the concerns of those like Lord Hill-Norton.

- B. D/DAAC/23/GA dated 19 Sep 85

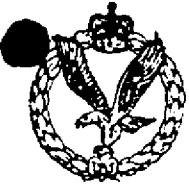

1. We discussed this subject briefly on the telephone. I attach copies of references A and B which explain the background to the enclosed photographs. Although I don't think this can properly be regarded as a UFO sighting, there might conceivably be a defence interest and I would therefore be grateful for your expert comments on the photographs and their contents.

2. As you will see, the AAC have asked that the 55 mm negatives are returned in due course.

PHOTOGRAPHS

Reference:

A. D/DAAC/23/GA dated 6 Aug 85

1. Film's taken at the site were sent to CS (Rep S) Photography with instructions to forward prints and negatives on to you as requested, and a request that copies be sent to me to return to the photographer. The copies had not arrived by the time I went on leave, so I left instructions that they be delivered to [redacted] Section 40 if they arrived in my absence. They did, and they were. Regretably CS (Rep S) had posted the whole consignment to this address and nothing to you.

2. I have visited [redacted] Section 40 and obtained the negatives and the few remaining black and white prints, all of which are enclosed.

3. My 35 mm photographs are fairly indifferent, however his 55 mm colour ones, are very good and give excellent detail both from the air and close to on the ground.

4. I trust this is what you want, I would be grateful for the return of the 55 mm negatives in due course.

**UNUSUAL OCCURRANCE - MIDDLE WALLOP AREA**

**Reference:**

A. Telecon Col **Section 40** 051730A Aug 85.

1. Enclosed are a brief report and polaroid photographs of the scene together with an extract from the HAMPSHIRE CHRONICLE reporting similar occurrences.
2. Four films, 2 x 100mm Colour, 2 x 35mm Black and White, of ground and aerial photographs of the scene have been given to MOD CS(Rep S) Photography (**Section 40**) with instructions to forward prints and negatives to you.
3. The films are the private property of **Section 40** and I would therefore be grateful if the negatives could be returned to me as soon as possible so that I can give them back to him. (With some prints if possible for services rendered).
4. Purely incidentally, **Section 40** was an official observer and film camera man at the BIKINI ATOL Atomic Explosion in 1952.

**Section 40**

SO2 Avn Stds HQ DAAC

UNUSUAL OCCURRENCE (UFO?)

1. On Monday 5 Aug 1985 Mr [Section 40] GOODWORTH, CLATFORD who farms near the AAC Centre, Middle Wallop telephoned to report some extraordinary depressions in a field of near ripe wheat, and asked, "What on earth we (THE AAC) were up to now?" I took the Aircraft Accident Investigation Officer (AIFSO) Maj [Section 40] REME with me and went to inspect the scene.
2. The site, Grid Reference 346392 was a virgin, un-weather damaged, near ripe field of wheat. We found the following:
- a. An exactly circular hole in the wheat in which the wheat had been laid flat in a clockwise twist 40 ft in diameter. (As if a plank had been put with one end at the centre and then swept round in a complete circle). There were one or two stalks of wheat standing which had sprung upright again. The wheat on the edge of the circle was completely upright and undamaged.
  - b. Four separate, smaller circles approx twelve feet in diameter, exactly similar to the larger one. These were set in a precise square, NORTH/SOUTH and EAST/WEST, with their centres 43 paces from the centre of the large circle.
  - c. There were absolutely no tracks in the wheat. To have set the holes in such a precise pattern manually would have required a tape measure or string, and the users would have been bound to leave tracks in the wheat.
  - d. All but one of the holes touched onto the main furrows in the wheat, and could therefore be approached from the edge of the field without leaving tracks. However there was no way of moving from one to the other without leaving tracks in the wheat, except by going some 200 yards to the edge of the field, and then back down another main furrow. One of the smaller holes was completely isolated.
3. Maj [Section 40] took some polaroid photographs which are included with this report. Mr [Section 40] semi professional photographer, took some 120mm colour photographs. I subsequently took Mr [Section 40] we photographed the scene from the air. By that time some half a dozen sight-seers were on the scene and a track, which had not been there when we were on the ground, had been made out to the isolated hole.
4. Present at the initial viewing were:

Lt Col [Section 40] AFC AAC  
Maj I [Section 40] REME  
Mr & [Section 40]  
Mr [Section 40]  
And two others

None of us could offer any reasonable explanation.

[Section 40]

## Chilbolton Church Fete

Spending the usual fancy competition at Chilbolton Church Fete, a parade with the theme "Children of the World" and its way from the Green, Rise and through the village led by the Test Valley Band. Children ranging in pre-school to teenagers dressed in costumes from various parts of the world. One mounted contingent in the local riding school.

Outriders on BMX bikes, children rode through the age on a haywain, decorated tractor and trailer, kindly loaned by Mr. Edward Painter.

The entries were judged by Rev. C. Hubbard, Mr. David Giddale and Mrs. Angela Giddale, and prizewinners were Charles Coats, Katherine Lewis, Thomas Batchelor and Vicki Jones.

Still on the theme of "Children of the World," there was a competition to make a dwelling from another entry, and prizewinners were Rachel Prevert, Thomas Batchelor and Katherine Lewis. Pre-school children were invited to paint a picture on the same theme and the winner in this section was Andrew Lewis. The village street was gaily decorated with bunting by village organisations and groups, if there was an excellent turn-out and all the stalls were well supported.

This year's very successful fete was held in the recently restored threshing barn and the lovely grounds of Barnard's Farm, with the kind permission of Mr. and Mrs. R. Yonell, and £2000 was raised.

brought to an abrupt halt when the ball burst; but the day was saved when a new ball was hurriedly produced from a nearby house. The Plough were the victors with a score of 2-1, and this obviously did not prove popular with the Dolly Birds who proceeded to pour water over the referee. Vera Woodrill captained the Plough team of Pat Casey, Sharon Kempster, Sally Nicholson, Melanie Gerrard, Debbie Welch, Sue Ruff and Fran Piper. Dolly Birds were Sue Rees (captain), Kate Denchey, Georgina Wilson, Wendy Denchey, Julie Harris, Ivy Wright, Sue Smith and Sally Rees.

The Children's Fancy Dress Competition was judged by Miss Dorothy Hunt from Alresford, and her task was made harder by such a variety of excellent costumes. In the Under Five Class, the most original was Fara Culvill as "Night and Day," the most attractive Sarah Kennedy as a Clown, and the best male Liam Brozzone as a Cowboy. In the six to nine years age group the most attractive was Katie Kennedy as a "Sugar Plum Fairy," and the most original Rose Smith as a Cat.

Strawberry teas were served in the Village Hall, and the final item on the programme was a tug-of-war refereed by Dave Bulpitt. Only four teams entered this year, from the Plough at Bishop's Sutton, the H.L.F. at Cheriton, and two from the Jolly Farmer at Bramdean. The victors were the Jolly Farmer A, with the H.L.F. second, the Plough third and the Jolly Farmer B fourth.

At the end of a very successful afternoon £530 had been raised by the Village Hall Committee, who had organised the Fete.

Ridgemead Estate, Bishop's Waltham, who works for Solent Excavations, was married to Miss Carol Joy Millier, daughter of Mr. and Mrs. A. P. Millier, of "Fair View," Winchester-road, Bishop's Waltham, on June 20th, at St. Peter's Church, Bishop's Waltham. The Rev. John Willard conducted the service.

## Founder's Day at Hordle House School

The parents of nearly all the local day children from Hordle House Prep. School, at Milford-on-Sea, together with many boarders' parents who had made long journeys, went to the school on June 29th, for Founder's Day, and the main event of the morning was a performance by some of the senior children of scenes from "The Merchant of Venice." At a previous performance, one of the infants from the Pre-Prep. School had been terrified by Shylock's realistic effort to get his pound of flesh from poor Antonio!

Country dancing by some of the junior children was supported by rhythmic clapping from the enthusiastic parents, and the last set piece was an exhibition of aerobics by a group of barefoot girls.

The school was open for parents to walk round, and the working models and computer displays in the Science Laboratory attracted great interest. Most of these had been made by senior children, and the exhibition in the Art Department was much admired.

Picnic lunches were eaten in the grounds, and the parents' cricket team, captained by Mr. Peter Tilby, home on leave from Nigeria, was defeated by the school 1st XI, by 16 runs. The balance of parental power was restored by the ladies' shooting team scoring 357 against the school's 296, and justice was maintained by the tennis match ending in a draw.

It's happened again! The Mystery Circles have returned. Nobody knows why or whence they come, but every year since the last war, the perfectly regular circles have appeared somewhere. For the last five or six years, they have materialised between Alresford and Winchester, first at Cheesefoot Head, this year at Matterley Farm, just off the A31. Similar phenomena have been reported in Australia, Canada, Sweden and in other parts of the British Isles including Westbury and Warminster. The largest in this group is about 40 feet across, the rest are 11 or 12 feet. In each the corn is swirled clockwise round the rings, whilst outside it is untouched. Normally — if anything about them can be called normal — they are in this configuration, the largest in the centre of a square, the smaller at each corner, although in 1982 at Cheesefoot, there were only three in a straight line. Theories abound about the cause, from Vandalism to UFOs, by way of micro-tornadoes. The truth is, we just don't know, but if they run true to form they will be back next year . . .

REPORT OF AN UNIDENTIFIED FLYING OBJECT

See (AS) cc SE3  
DISS ←

- A. Date, time and duration of sighting. (Local times to be quoted)

3 OCT 85 2025A Approx 5-6 minutes.

86

- B. Description of object. (Number of objects size, shape, colour, brightness sound smell etc.)

One object. No physical shape discernible, however thought to be round due to 6/7 bright lights found perimeter. Silent.

- C. Exact position observer. (Geographical location Indoors or outdoors, stationary or moving) Initially cycling along A 30 in Zellah.

Then dismounted to watch.

- D. How observed. Naked eye, binoculars, other optical device, still or movie camera.)

Naked eye.

- E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing)

Coming from over sea in Pampat area, heading toward Saltash.

- F. Angle of sight (Estimated heights are unreliable)

Only thought to be high.

- G. Distance (By reference to a known landmark wherever possible)

Not able to estimate

- H. Movements (Changes in E,F and G may be of more use than estimate of course and speed)

Generally steady, one slight turn observed towards onlookers, then away again.

- J. Meteorological conditions during observations. (Moving clouds haze mist etc.)

No significant cloud.

- K. Nearby objects (Telephone lines high voltage lines reservoir, lake, pool, swamp or marsh, river high buildings, tall chimneys, steeples spires, T.V. or radio masts, airfields, generating plant factories pits of other sites with flood lights or other night lighting)

No major buildings other than residential.

No pylons or masts.

L. To whom reported (Police military organisations the press etc.)

Base Operations, Royal Air force St. Mawgan.

M. Name and address of informants

Section 40

(14 yrs)

Section 40

Cornwall.

Cornwall.

N. Any background the informant may volunteer.

Informants in group of 6 cyclists, all of whom saw object. Living close to St. Mawgan, all well used to seeing aircraft, unlikely to confuse object with aircraft.

O. Other witnesses

No names obtained of other lads.

P. Date and time of receipt of report.

3 Oct 85 - 2030 A.

85

N TO MINISTRY OF DEFENCE

UNIDENTIFIED FLYING OBJECT - SIGHTING P. BRADSHAW, 6100 MILES.  
1. AT 0800Z JUN 76, 000000Z - 0100Z UNTIL ABOUT 0110Z SAME DAY.  
2. INITIALLY A SINGLE POWERFUL BEAM OF LIGHT THAT WAS SEEN IN ALIGNED  
IN THE SKY. THIS BEAM WAS DESCRIBED AS SIMILAR TO A LASER OR

LIGHTHOUSE BEAM IN ITS MOVEMENT. EXACT HEIGHT OR DISTANCE WAS NOT DETERMINED BUT IN BETWEEN VIEWER AND OBJECT WAS A LINE OF TREES OF ABOUT 50 FEET IN HEIGHT. THIS WENT ON FOR ABOUT 1/15 MINUTES AND THEN DISAPPEARED.

THEN A POINT OF LIGHT ABOUT CIRCUMFERENCE OF A HORN ROSE UP FROM BEECH TREES TO ABOVE THEM. THIS OBJECT WAS DESCRIBED AS HAVING A RING OF RED LIGHTS AROUND ITS BASE, EACH ABOUT ONE AND A HALF INCHES IN DIAMETER. ABOVE THESE LIGHTS WERE THREE DIFFERENT LEVELS OF WHITE COLORFUL LIGHTS. DURING SIGHTING A HUMMING NOISE WAS HEARD WHICH BECAME LOUDER AS OBJECT ROSE FROM BEECH TREES. THERE WAS NO SMELL DETECTED BY WITNESSES.

3. VIEWED FROM JUNCTION OF CUMBERLAND BAY/FURNESS CLOSE, P. BRADSHAW ESTATE, KIRKTON UPON HULL. THEY WERE STANDING OUTSIDE.
4. VIEWED BY NATHANIAL.
5. FLEW (GENERAL DIRECTION) ACROSS FIELDS FROM ABOVE LOCATION.
6. NO ANGLE OF SIGHT - OBJECT VIEWED ABOVE AND BEHIND THE ABOVE MENTIONED LINE OF TREES, 50 FEET IN HEIGHT (APPROX). NO EXACT HEIGHT AVAILABLE.
7. LINE OF TREES LOCATED ARE BETWEEN 150 AND 170 YARDS AWAY.
8. ORIGINAL SINGLE LIGHT SIGHTED ABOVE TREES AND ON ITS DISAPPEARANCE THE MAIN BODY ASCENDED ABOVE TREE LINE AND THEN DESCENDED AGAIN. THE MAIN BODY LIGHTS THEN WENT OUT AND HUMMING CONTINUED FOR ABOUT 1/3 MINUTES BEFORE ALSO CEASING.
9. NIGHTTIME, CLEAR VISIBILITY APART FROM LOW DOWN SLIGHT MIST AND A 1/4 MILE DISTANCE.

still, while a lighthouse on the  
Somerset coast flashed regularly, so  
that I now saw two lights - one  
flashing & one still, it suddenly  
disappeared.

It was certainly not  
a shooting star - It travelled in too  
steady a straight line, & it was not  
a crashing aircraft — I saw from  
my window some months ago a  
Trainer Jet crash into the sea  
off the South coast, outside Swanage,  
& that had flashing lights in  
quite a different manner. And  
anything falling from the sky  
would not have remained

Officer concerned.

AIF.

LATICE, R.A.F.

West Drayton

Dear Sir. I will inform you  
that at about 10 PM, on Friday,  
August 2 I saw from my window  
what I am convinced was a U.F.O.

I glared through my  
window & saw what appeared to  
be a most brilliant & brilliant  
sunrise to my right. But of course  
it was much too late to be a

still, over the sea, in the way  
this did.

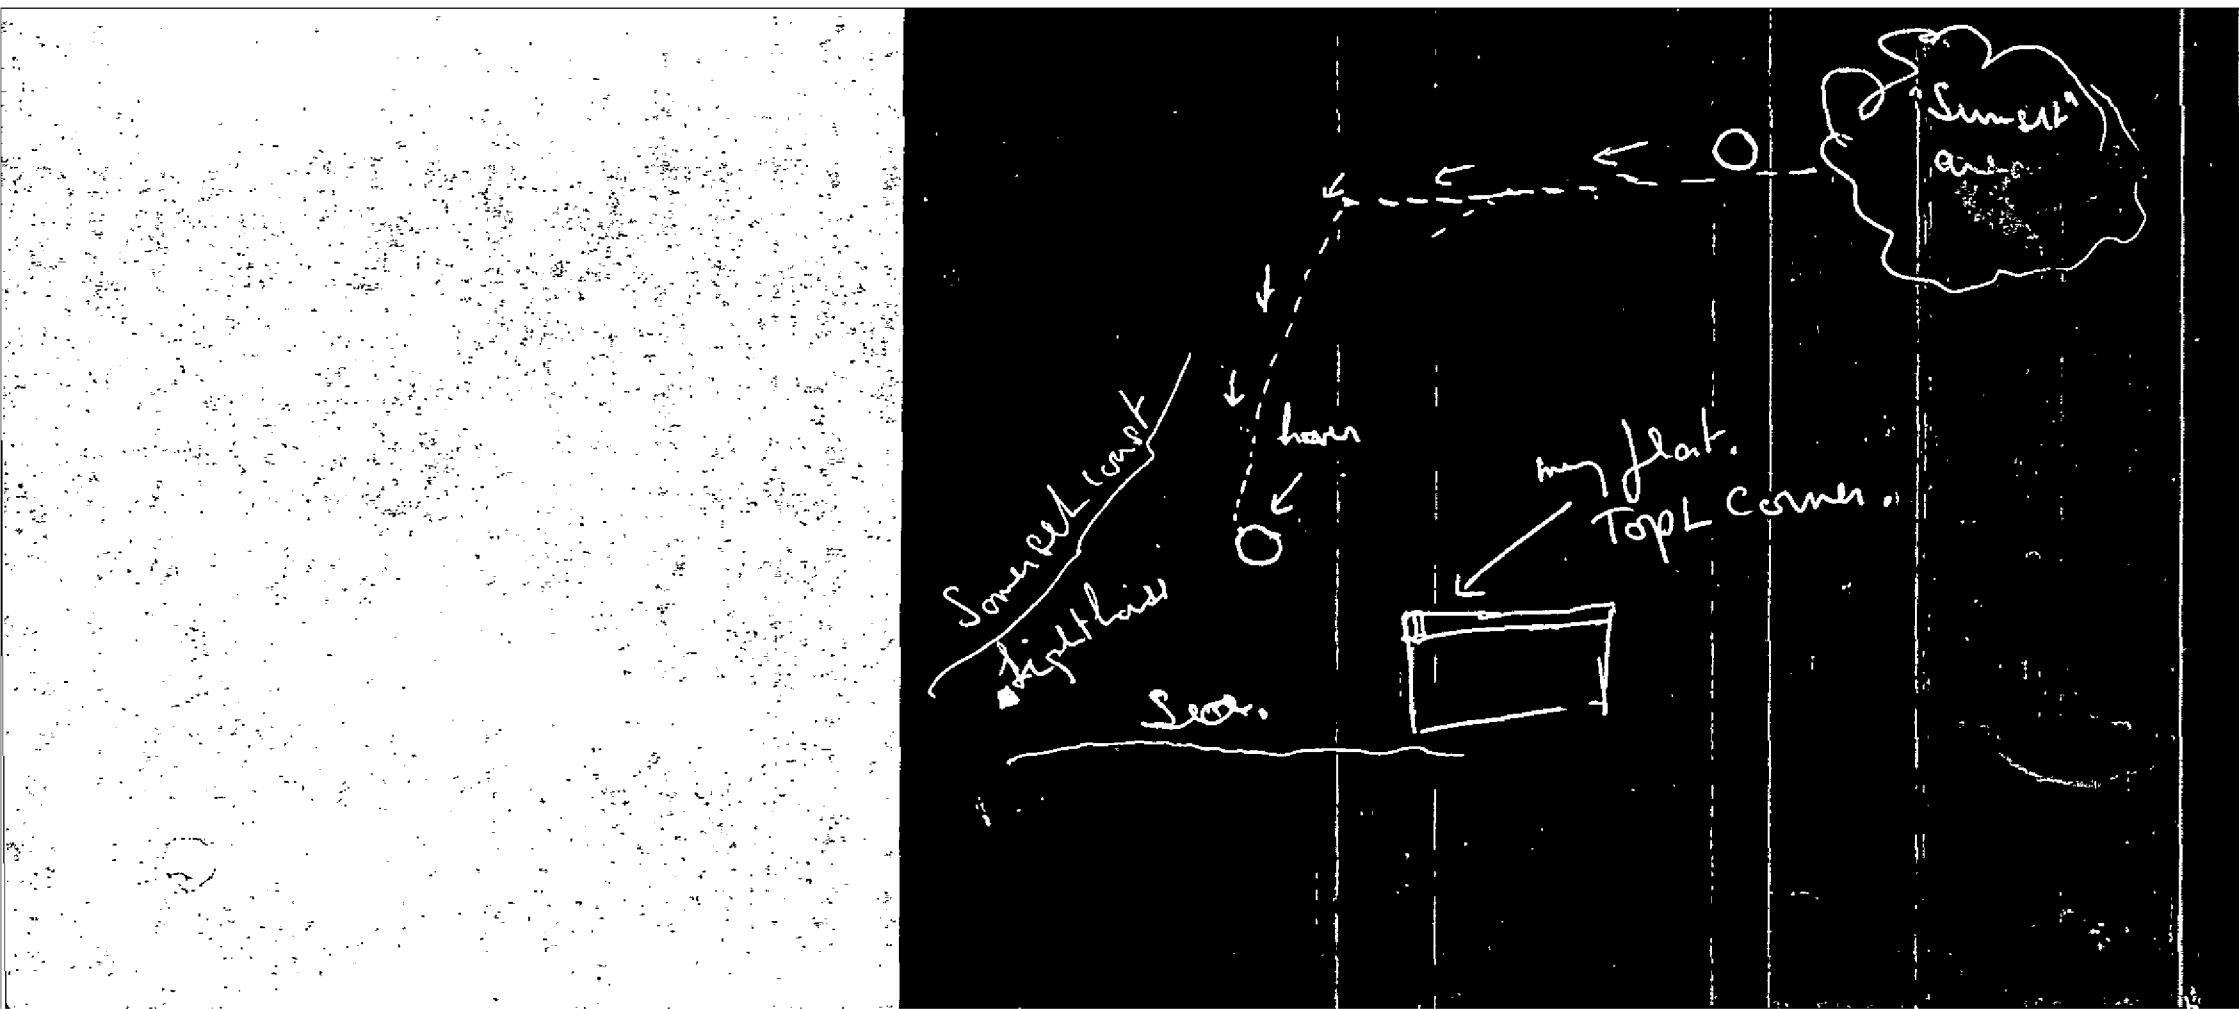

I might add I am  
76 years old, & not given to  
wild flights of imagination!

I have enclosed a  
rough diagram of what I saw.

Yours faithfully,

Section 40

Sunset, & was too high in the  
sky. As I watched a brilliant  
ball of light detached itself  
from the "sunset" & moved steadily  
away to the left, on a dead  
straight line. I thought "that's  
a very brilliant moon", & then I  
realised it was travelling the  
wrong way for the moon - it was  
going from right to left. It was  
a most brilliant light, not  
flashing or twinkling but just  
moving steadily. As I watched,  
wondering what it could be, it  
curved downwards towards the  
sea, & then to my amazement  
hovered above the sea for quite some  
seconds, & then, having remained

**References:**

- A. D/SEC(AS) 12/3 dated 9 August 85.
- B. D/US of S(AF)DGT 28/1/4 dated 1 August 85.

1. In Reference A, you notified us of the meeting between US of S(AF) and Lord Hill-Norton on Unidentified Flying Objects (UFOs) on 25 Sept 85; you asked for a short contribution on our area of interest and whether we would be willing to attend the meeting.

2. As you state in your brief for the US of S(AF), all UFO reports are passed to the DIS - specifically DI55 who, inter alia, are responsible for assessing WP space systems. It is in this area that our main interests lie, although the reports are also seen by other staff within DI55. Obviously we read the reports with interest, but over, at least the last few years, we have not considered that any of the reports justified detailed investigation; this point is well made in the opening paragraph of your draft.

3. As far as our attendance at the meeting on 25 September is concerned, I do not think that we can add much to the discussion but we would be willing to attend if you consider it worthwhile.

Section 40

Wg Cdr  
DI55c

Section 40

MEETING BETWEEN US of S(AF) AND LORD HILL-NORTON

UFOs

a. I accept that there are strange phenomena to be seen in the sky, however I believe there to be adequate explanations for them. Experience has shown that most reported sightings can be attributed to things such as aircraft, meteorological balloons or natural phenomena like ball lightning. Of course there are many other equally straightforward explanations. However, there are a small number of cases where a simple explanation cannot be found immediately and on these occasions we are careful to ensure that they are of no Defence significance. Having satisfied ourselves of this, as you know, we do not attempt any further investigations. Clearly some reports remain unexplained but we have found no evidence that these phenomena represent a threat to national security and therefore cannot justify devoting Defence resources to their investigation.

b. All reports received by the MOD are channelled through Sec(AS)2. They are passed to the Air Staff who examine them for Air Defence implications. In some cases, where (on the face of it) there could be a defence interest, enquiries are made of relevant radar establishments etc in order to obtain more information. All reports are also passed to the Defence Intelligence organisation who have a keen interest in any sightings of unusual objects. We have no specialist group in Whitehall or anywhere else involved in UFO's and no civilian advisers are involved.

The Flying Complaints Flight at Rudloe Manor are concerned with receiving and investigating flying complaints. In the course of their duties they occasionally receive UFO reports (as do many other units) but they have no specific role with regard to this subject.

Secretariat (Air Staff) is the Division which provides secretariat support to CAS and the Air Staff and in this capacity is responsible for correspondence with members of the public and answering PQs etc on many subjects, including UFO's. Sec(AS)2 is the branch which amongst other things handles UFO's, there is no such branch as Air Staff Secretariat 8. You may be thinking of Defence Secretariat 8 which no longer exists and from which Sec(AS) evolved as a result of reorganisation of MOD last January.

c. Many of the UFO reports received in MOD come through Defence establishments, although most of these come originally from members of the public. Very few reports are made by military pilots; for instance, in the last 12 months Sec(AS) has received only one such report.

d. [GE3 to provide advice please]

e. The Department is happy to release what information we have on specific incidents. However we could not justify the effort involved in searching for or collating information of a more general nature.

UNIDENTIFIED FLYING OBJECTS

With apologies for ruining your summer I attach a letter that Lord Trefgarne has received from Admiral of the Fleet Lord Hill-Norton in reply to Lord Trefgarne's letter of 17 July. You will see that Lord Hill-Norton accepts the offer of a meeting and we will be in touch with him shortly to arrange this. I will let you know the time and place as soon as possible, and in the meantime I should be most grateful if you could set in hand ~~a~~ briefing for Lord Trefgarne in the form of answers to Lord Hill-Norton's specific questions a-e.

Section 40

PS/US of S(AF)  
Section 40

1 August 1985

26th July, 1985

*gl* ✓  
 The Lord Trefgarne,  
 Parliamentary Under-Secretary of State  
 for the Armed Forces,  
 House of Lords,  
 London, SW1.

*Dear David.*

Thank you for your letter of 17th July about our correspondence on the UFO question. I would greatly welcome an off-the-record talk with you. Parliament rises on Tuesday, but I would be delighted to come up to London at any mutually convenient date during August when you have had time to consider this letter and to take any further briefing from officials which you think might be useful. (Perhaps your office would care to be in touch with me by telephone at my home address Tel: **Section 40**)

It may be helpful if I list the questions which I, at any rate, would like to explore. I know you will understand that I do not ask them frivolously or without a good deal of careful thought about the evidence - or supposed evidence - which appears to exist for a persistent phenomenon which, as I see it at present, cannot be wholly without Defence significance. I need hardly add that if there were sensitive Defence questions at issue, I would be the last to press them in public.

The ground which I hope we might cover in an informal discussion is indicated by the following questions:

- a. Does the Ministry of Defence acknowledge - by way of reports from the public, the civil police, the Civil Aviation Authority, other civil authorities or its own establishments - that traces are obtained from time to time of the intrusion into British airspace (and sometimes territory) of phenomena for which no prosaic explanation can be given? (I should add that although I am always willing to be disengaged, the evidence accumulated by civilian researchers for the persistence of some such phenomena - amounting on occasion to apparently structured 'vehicles' - seems to me at present overwhelming. I shall be glad to give you instances. The events reported by Lt. Col. **Section 40** of the United States Air Force in a report to your Department dated 13th January 1981 are among them).

- 2 -

- b. Assuming, as I hope, that the Ministry of Defence does not ignore the reports reaching it (and we have been told in reply to Parliamentary questions that they amount to some hundreds a year from civilian sources alone), what steps are taken by the Department to investigate them? In particular:-
- i) Are they dealt with solely ad hoc, using routine staff channels? or is there some specialist group, either within the Whitehall establishment or elsewhere, which is charged with taking an expert view? If so, to whom do they report? And what is their composition? Do they include civilian advisers from outside your Department?
  - ii) What part is played, if any, by the Flying Complaints Flight at RAF Rudloe Manor?
  - iii) What part, if any, is played by Air Staff Secretariats 2 & 8?
- c. How many of the reports of unusual phenomena have been received from Defence establishments, including reports from the pilots of military aircraft?
- d. What material does your Department have of traces left on military radar or in photographic form either from sorties by military aircraft or from ground-based or ship-based facilities?
- e. Can any such material be released either to me or to responsible persons outside your Department for purposes of scientific study?

In troubling you with these questions I am well aware that their subject matter has often been thought easy to ridicule, especially when associated with some of the wilder notions which are current among the civilian research groups. I am not wedded to any particular theory myself. I do, on the other hand, believe that there is overwhelming evidence for a persistent phenomenon of a highly unusual character. This is, at the least, of considerable scientific interest; and I have not yet heard anything from your Department which convinces me that it is wholly without Defence significance. I would be reassured to know either that it is being adequately gripped as a Defence matter (and, if so, by precisely what means) or that material held by your Department can be released

- 3 -

to serious civilian researchers under arrangements which do not impose unacceptable administrative burdens.

Thank you again for the offer of a discussion. I look forward to our talk.

*Yours,  
Peter.*

PS. I ought perhaps to let you know that Aubrey Buxton is currently considering the possibility of an extended programme on Anglia Television dealing, among other things, with the incidents reported to your Department by Lt. Col. Halt, which were the subject of my letter to the Defence Secretary.

**REPORT OF AN UNIDENTIFIED FLYING OBJECT**

- A. Date, Time and Duration of Sighting. 13 August 1985 2200hrs A
- B. Description of Object. Approx 12 small, bright, fast objects. Green glow duration 10 - 15 seconds each.
- C. Exact Position Observer. As per L, outdoors.
- D. How Observed. Naked eye.
- E. Direction in which Object was first seen. From the direction of Sheffield moving towards Finningley.
- F. Angle of sight. Estimated very high.
- G. Distance. Not known.
- H. Movements. Moving very fast, erratic, but controlled movements.
- J. Meteorological conditions during observation. Clear night.
- K. Nearby objects. Built up residential area.
- L. To whom reported. SDO RAF Finningley - Flt Lt **Section 40** Via Finningley switchboard.
- M. Name and Address of informant. **Section 40**  
Besseccarr Tel: Don **Section 40**  
Doncaster
- N. Any background on the informant that may be volunteered.  
Stable. Wondered if he had seen a meteorite shower.
- O. Other witnesses. Informants wife.
- P. Date and time of receipt of report. 13 Aug 1985 2255hrs A
- Q. Is a reply requested. Yes

UNIDENTIFIED FLYING OBJECTS

Reference:

A. D/US of S(AF)DGT 28/1/4 dated 1 Aug 85

1. As you will see from Reference A (copy attached), Lord Trefgarne has agreed to meet Lord Hill-Norton to discuss UFO's. Arrangements have been made for the meeting to take place on 25 September 1985 at 15.00 in the House. Sec(AS) will be represented at the meeting and we see considerable advantage in having further support from yourselves. Would you please let me know whether you would be willing to attend.

2. We have drawn up the attached brief for US of S(AF) which attempts to answer most of the questions posed by Lord Hill-Norton. I should be grateful for your comments on these and, particularly, for guidance from GE3 on how we might respond to question (d). The answer to question (e) may also require some alteration depending on the answer to question (d).

3. In addition to the attached brief we believe it would be helpful to provide Lord Trefgarne with a speaking note describing exactly how the MOD handles UFO reports. Provided you are content, this will include a summary of the interests of GE3 and DI55 and would presumably need to be at least CONFIDENTIAL because of the Tech-Int aspects. I should be grateful to know if you are content for Lord Hill-Norton to be briefed in this way, and would be grateful for short contributions describing your own areas of interest.

4. May I please have your replies by cop 30 August 85.

Section 40

Sec(AS)2a

Section 40

MEETING BETWEEN US of S(AF) AND LORD HILL-NORTON

UFOs

a. I accept that there are strange phenomena to be seen in the sky, however I believe there to be adequate explanations for them. Experience has shown that most reported sightings can be attributed to things such as aircraft, meteorological balloons or natural phenomena like ball lightning. Of course there are many other equally straightforward explanations. However, there are a small number of cases where a simple explanation cannot be found immediately and on these occasions we are careful to ensure that they are of no Defence significance. Having satisfied ourselves of this, as you know, we do not attempt any further investigations. Clearly some reports remain unexplained but we have found no evidence that these phenomena represent a threat to national security and therefore cannot justify devoting Defence resources to their investigation.

b. All reports received by the MOD are channelled through Sec(AS)2. They are passed to the Air Staff who examine them for Air Defence implications. In some cases, where (on the face of it) there could be a defence interest, enquiries are made of relevant radar establishments etc in order to obtain more information. All reports are also passed to the Defence Intelligence organisation who have a keen interest in any sightings of unusual objects. We have no specialist group in Whitehall or anywhere else involved in UFO's and no civilian advisers are involved.

The Flying Complaints Flight at Rudloe Manor are concerned with receiving and investigating flying complaints. In the course of their duties they occasionally receive UFO reports (as do many other units) but they have no specific role with regard to this subject.

Secretariat (Air Staff) is the Division which provides secretariat support to CAS and the Air Staff and in this capacity is responsible for correspondence with members of the public and answering PQs etc on many subjects, including UFO's. Sec(AS)2 is the branch which amongst other things handles UFO's, there is no such branch as Air Staff Secretariat 8. You may be thinking of Defence Secretariat 8 which no longer exists and from which Sec(AS) evolved as a result of reorganisation of MOD last January.

c. Many of the UFO reports received in MOD come through Defence establishments, although most of these come originally from members of the public. Very few reports are made by military pilots; for instance, in the last 12 months Sec(AS) has received only one such report.

d. [GE3 to provide advice please]

e. The Department is happy to release what information we have on specific incidents. However we could not justify the effort involved in searching for or collating information of a more general nature.

UNIDENTIFIED FLYING OBJECTS

With apologies for ruining your summer I attach a letter that Lord Trefgarne has received from Admiral of the Fleet Lord Hill-Norton in reply to Lord Trefgarne's letter of 17 July. You will see that Lord Hill-Norton accepts the offer of a meeting and we will be in touch with him shortly to arrange this. I will let you know the time and place as soon as possible, and in the meantime I should be most grateful if you could set in hand ~~a~~ briefing for Lord Trefgarne in the form of answers to Lord Hill-Norton's specific questions a-e.

Section 40

PS/US of S(AF)

Section 40

1 August 1985

*for you*  
26th July, 1985

The Lord Trefgarne,  
Parliamentary Under-Secretary of State  
for the Armed Forces,  
House of Lords,  
London, SW1.

*Dear David,*

Thank you for your letter of 17th July about our correspondence on the UFO question. I would greatly welcome an off-the-record talk with you. Parliament rises on Tuesday, but I would be delighted to come up to London at any mutually convenient date during August when you have had time to consider this letter and to take any further briefing from officials which you think might be useful. (Perhaps your office would care to be in touch with me by telephone at my home address Tel: **Section 40**)

It may be helpful if I list the questions which I, at any rate, would like to explore. I know you will understand that I do not ask them frivolously or without a good deal of careful thought about the evidence - or supposed evidence - which appears to exist for a persistent phenomenon which, as I see it at present, cannot be wholly without Defence significance. I need hardly add that if there were sensitive Defence questions at issue, I would be the last to press them in public.

The ground which I hope we might cover in an informal discussion is indicated by the following questions:

- a. Does the Ministry of Defence acknowledge - by way of reports from the public, the civil police, the Civil Aviation Authority, other civil authorities or its own establishments - that traces are obtained from time to time of the intrusion into British airspace (and sometimes territory) of phenomena for which no prosaic explanation can be given? (I should add that although I am always willing to be disengaged, the evidence accumulated by civilian researchers for the persistence of some such phenomena - amounting on occasion to apparently structured 'vehicles' - seems to me at present overwhelming. I shall be glad to give you instances. The events reported by Lt. Col. Halt of the United States Air Force in a report to your Department dated 13th January 1981 are among them).

- 2 -

- b. Assuming, as I hope, that the Ministry of Defence does not ignore the reports reaching it (and we have been told in reply to Parliamentary questions that they amount to some hundreds a year from civilian sources alone), what steps are taken by the Department to investigate them? In particular:-
- i) Are they dealt with solely ad hoc, using routine staff channels? or is there some specialist group, either within the Whitehall establishment or elsewhere, which is charged with taking an expert view? If so, to whom do they report? And what is their composition? Do they include civilian advisers from outside your Department?
  - ii) What part is played, if any, by the Flying Complaints Flight at RAF Rudloe Manor?
  - iii) What part, if any, is played by Air Staff Secretariats 2 & 8?
- c. How many of the reports of unusual phenomena have been received from Defence establishments, including reports from the pilots of military aircraft?
- d. What material does your Department have of traces left on military radar or in photographic form either from sorties by military aircraft or from ground-based or ship-based facilities?
- e. Can any such material be released either to me or to responsible persons outside your Department for purposes of scientific study?

In troubling you with these questions I am well aware that their subject matter has often been thought easy to ridicule, especially when associated with some of the wilder notions which are current among the civilian research groups. I am not wedded to any particular theory myself. I do, on the other hand, believe that there is overwhelming evidence for a persistent phenomenon of a highly unusual character. This is, at the least, of considerable scientific interest; and I have not yet heard anything from your Department which convinces me that it is wholly without Defence significance. I would be reassured to know either that it is being adequately gripped as a Defence matter (and, if so, by precisely what means) or that material held by your Department can be released

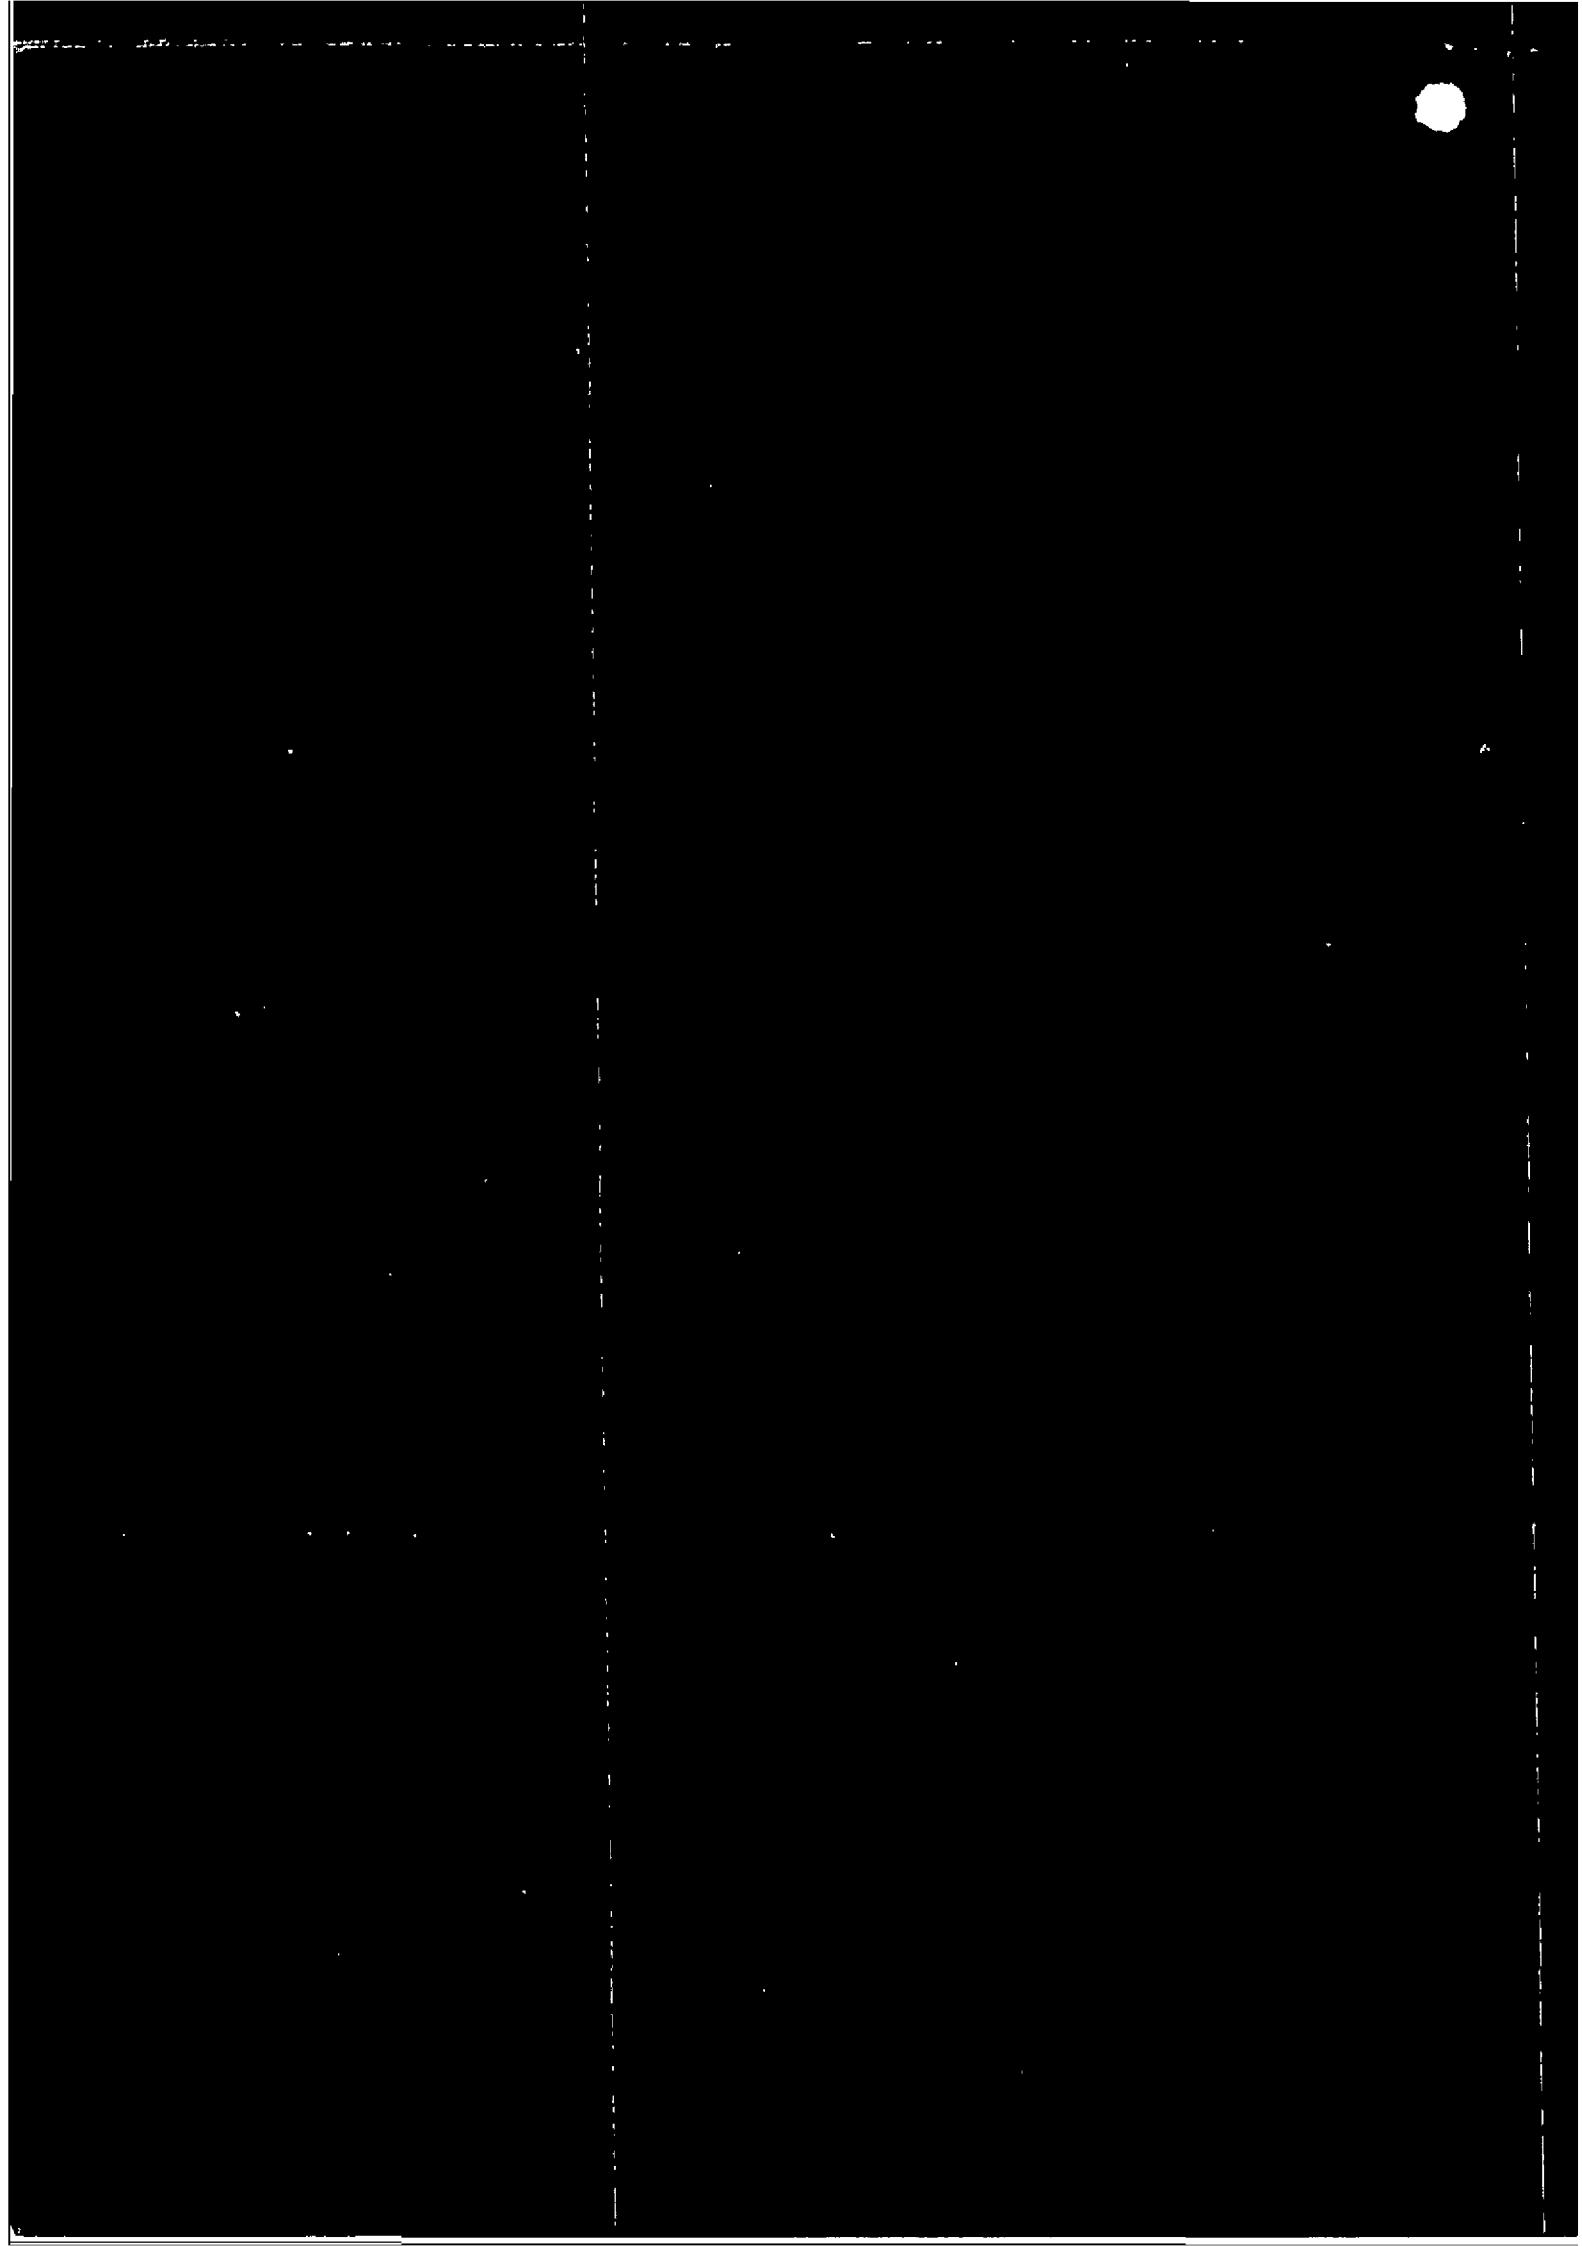

- 3 -

to serious civilian researchers under arrangements which do not impose unacceptable administrative burdens.

Thank you again for the offer of a discussion. I look forward to our talk.

*Yours,  
Peter.*

PS. I ought perhaps to let you know that Aubrey Buxton is currently considering the possibility of an extended programme on Anglia Television dealing, among other things, with the incidents reported to your Department by Lt. Col. Halt, which were the subject of my letter to the Defence Secretary.

## MINUTE SHEET

Subject Station: Sowerby Bridge Date: 8 July 1985

POSSIBLE UFO SIGHTING

Chief Superintendent **Section 40**

I have to report that at 21.37 hours Sunday 7 July 1985 I was at Sowerby Bridge Police Station when I received a report by telephone from a **Section 40** born 22.12.15 of **Section 40** **Section 40** Rishworth, that at between 2.50 am and 3.10 am on Sunday 7 July 1985 he saw in an easterly direction from his house, at an altitude of 5° above the horizon a strong white light which he said was flickering and was travelling in a southerly direction towards Manchester.

I suggested to him that this may have been a sighting of an aircraft but he insisted that this was not the case. I therefore respectfully suggest that this report be forwarded to the Force HQ for the attention of Chief Superintendent, Admin and that he may feel it worthy of being passed to the Ministry of Defence Department S4F (Air), Main Building, Whitehall, London SW1A 2HB for their information.

Telex: Section 40

16th July 1985

Dear Sir,

Report of Unidentified Flying Object

Please find enclosed UFO report from Section 40

This report was initially relayed to ATC Dunsfold by Section 40 fiancée who is a Section 40 employee at Dunsfold. It was not passed by telephone to AIS Military as I considered the time delay from observation to receipt of the report at Dunsfold would not constitute an 'immediate' report.

The Dunsfold radar controller on duty at the time of the reported observation does not recall seeing anything unusual on radar in the vicinity of Horsham at the appropriate time.

Yours faithfully,

Section 40

Manager ATC Services

enc.

MINISTRY OF DEFENCE

18 JUL 1985

AIR FORCE OPERATIONS

A) 15.7.85, 4.06 pm - 4.10 pm.

B) Spherical, approx 30-40 feet diameter, with appearance of highly polished silver metal, with a protruding lip  $\frac{1}{3}$  of the way from the bottom, this being mid grey in colour. The lower surface of this lip seemed to have a flat surface on the horizontal axis of the sphere, the upper surface of the lip seemed concave and faired in. The object emitted a throbbing double-beat sound somewhat akin to a ship's propeller. The object became silent before it was out of the audio range one would expect, as if the sound source had stopped.

C) **Section 40**

Horsham,  
W. Sussex.

The object was seen from both indoors and outdoors, in a direction from the house of approx  $330^{\circ}$  through  $260^{\circ}$ . I was stationary on foot.

D) The sighting was entirely by naked eye.

E) The direction in which the object was first seen was approx  $330^{\circ}$  from the house. No landmarks available.

F) Very approx  $30^{\circ}$ .

G) Approx  $\frac{1}{2}$  mile, no landmarks of use in this respect.

H) The object moved in an arc from  $330^{\circ}$  to  $260^{\circ}$  (from observers position) increasing distance from the observer through this arc, and coming back towards the observers position, towards the end of the arc, visual contact was lost at this point, the object seemed to maintain a constant altitude.

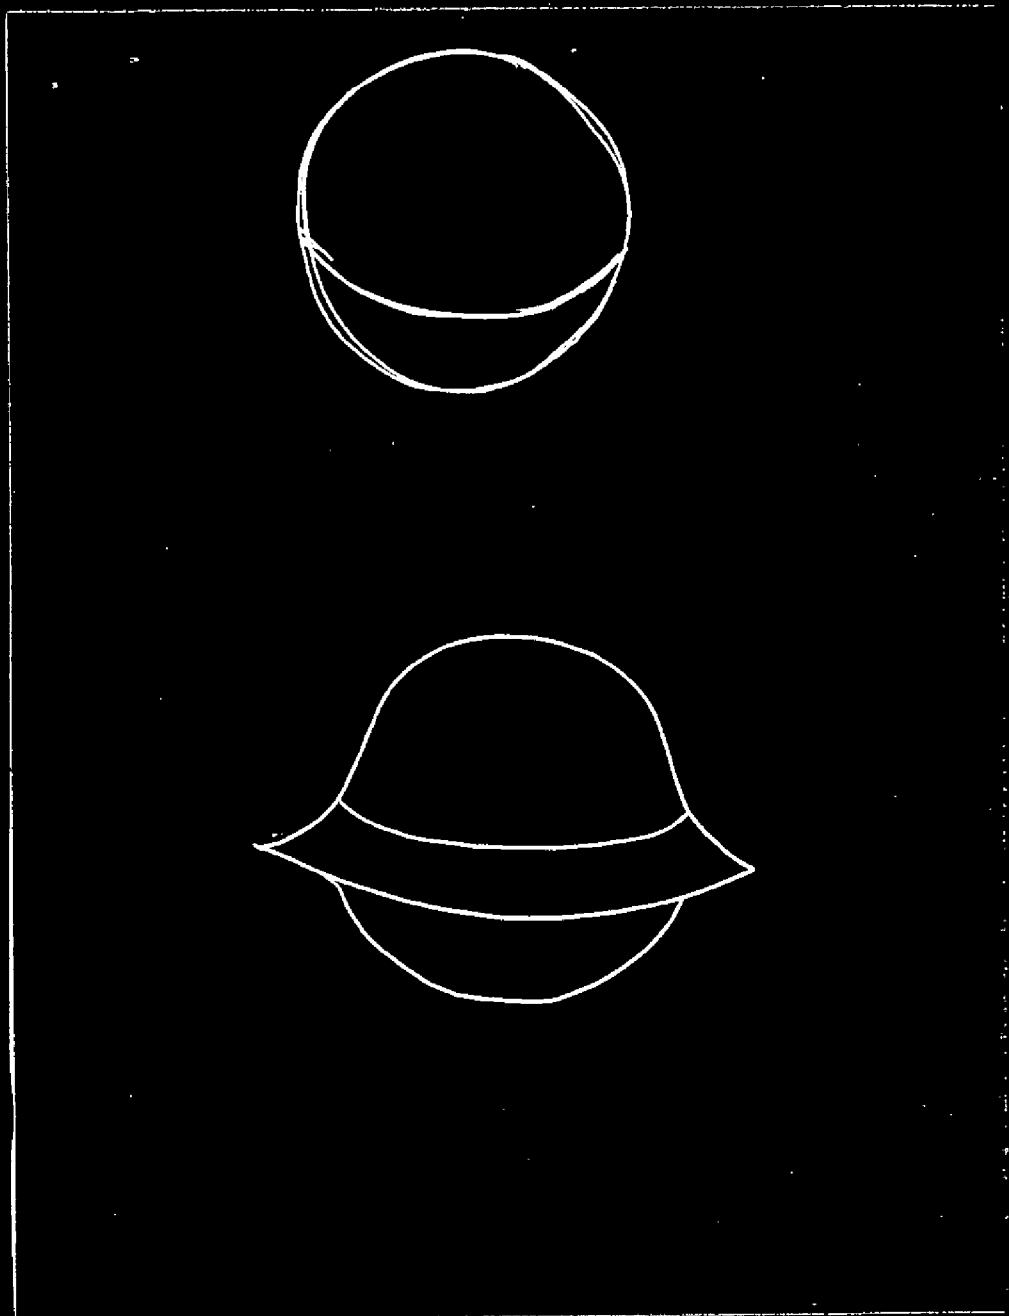

J) There was a white overcast sky behind the object at all times but visibility was very good and at no time was there any cloud or mist between object and observer.

K) The only nearby site of the types specified is the airport at Gatwick.

L) Air Traffic Control, Dunsfold Aerodrome, Surrey.

M) Section 40

- N) Tee total, 19 years, excellent eyesight, familiar with aircraft, no previous sightings, not on any drugs.
- O) No known other witnesses.

Report on Unidentified Flying Object.

- A. Date, Time (local). Duration of sighting.
- B. Description of Object.  
Number, size, shape, colour, brightness, sound, smell etc.
- C. Exact position of Observer.  
Geographical location, indoors/outdoors, moving/stationary.
- D. How Observed.  
Naked eye, binoculars etc., still/movie camera.
- E. Direction in which Object first seen.  
Landmark may be more use.
- F. Angular elevation of Object.  
Estimated heights are unreliable.
- G. Distance of Object from Observer.  
By reference to a known landmark wherever possible.
- H. Movements of Object.  
Change in E, F & G may be of more use than estimates of course and speed.
- J. Meteorological Conditions during observations.  
Moving clouds, haze, mist etc.
- K. Nearby Objects.  
Telephone or high-voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, spires, TV or radio masts; airfields; generating plant; factories; pits or other sights with floodlights or other lighting.
- L. To whom reported.  
Police, Military organisations, the Press, etc.
- M. Name and Address of informant.
- N. Any background information on the informant that may be volunteered.
- O. Other witnesses.
- P. Date/time of receipt of report.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).

131130 ± JUNE 85

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Two large 'elongated' lights following in line

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

\* See address below. Seen from Bedroom window

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye initially then through binoculars

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

. South

F. Angle of sight. (Estimated heights are unreliable).

45-50°

G. Distance. (By reference to a known landmark wherever possible).

Unable to assess but appeared to be relatively close.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Steady East to West

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Day with some high cloud

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

None - rural area

L. To whom reported. (Police, military organisations, the press etc).

RNAS Yeovilton who suggested Air to Air Refuelling but referred informant to Sec (AS)2.

M. Name and address of informant.

Section 40

TAVINGTON Somerset

N. Any background on the informant that may be volunteered.

Higher Clinical Officer, Somerset Health Authority.

O. Other witnesses.

Husband

P. Date and time of receipt of report.

To Sec (AS)2 - 181040Z JUNE 85

20

REPORT OF AN UNIDENTIFIED FLYING OBJECT

- A. Date, time and duration of sighting. (Local times to be quoted).

031440Z Jun 85 (30 secs)

- B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Cylindrical metallic wingless (1 in number).

- C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

Outdoors, reclining in sun lounger in own garden in Whetton.

- D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye

- E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

From Rickmans (i E), heading towards Heathrow

- F. Angle of sight. (Estimated heights are unreliable).

45°

- G. Distance. (By reference to a known landmark wherever possible).

Not really possible to judge but was seen at same time as a/c taking off, say 2m.

- H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Moving steadily to the W, towards Heathrow

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Clear blue sky

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Nothing unusual, normal residential area

L. To whom reported. (Police, military organisations, the press etc).

(ATC LHR, then CAA.)

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. DATE, TIME, DURATION OF SIGHTING  
(Local times to be used)

28/5/85. 2340 LOCAL TO 0015 LOCAL

B. DESCRIPTION OF OBJECT

Number 2

Size NOT SURE, BUT POSSIBLY THE SIZE OF A SEA KING.

Shape NO SHAPE, JUST A SET OF LIGHTS ON, WHAT APPEARED A RACE TRACK PATTERN.

Colours 2 SETS OF LIGHTS IN PERFECT FORMATION, EXTREMELY CLOSE BEHIND THAN BRIGHTNESS. THE STATION KEEPING OF THE RED ARROWS, WITH NO UNDULATING MOVEMENT.  
Sound ~~2 SETS OF~~ VERY BRIGHT YELLOW LIGHTS WITH A SET OF SMALLER LIGHTS AROUND EACH SIDE OF THE 2 BINS, IN THE FOLLOWING PATTERN:

C. EXACT POSITION OF OBSERVER (W) (W).

Geographical location 49°33'N 3°36'E, AS MARKED ON THE MAP.

Indoors/Outdoors My BEDROOM, FACING EAST.

Stationary/moving

↑  
RED.  
RED.  
THE REMAINDER  
ALL YELLOW.

D. HOW OBSERVED

Naked eye YES } BOTH THROUGH THE GLASS WINDOW AND OPEN WINDOW, AND  
Binoculars YES } FROM THE STREET IN FRONT OF THE HOUSE.

Other optical device NIL

Still or cine camera NIL

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN — FIRST SEEN DUE EAST, TO THE LEFT OF HEATON CHURCH.  
(A landmark may be more useful than a badly estimated bearing)

F. ANGLE OF SIGHT (Estimated heights are unreliable) OVER 1000', AND POSSIBLY UP TO 2000'.

28th May, 1985

RAF Rudloe Manor,  
Att'n. Flying Complaints Flight,  
Hawthorne,  
Wiltshire SN13 OPQ

Dear Sirs,

I am writing to confirm the information I gave by telephone to the Duty Officer, RAF Operations, at approximately 0110 on Saturday 25 May 1985.

I reported that during a visit to friends at Cowley Hill, a little north of Borehamwood, Hertfordshire, I had seen - at some time between 2100 and 2130 hours on Friday 24 May 1985 - a triangular array of lights in the direction of Elstree. They appeared to form an equilateral triangle of white to yellow lights, self-illuminated, with the base parallel to the horizon, at an elevation of 30 to 40 degrees. I reported the azimuth as being about South East, but telephoned the Operations Room again at about 1730 on Saturday 25 May 1985 to say that this was clearly in error: the azimuth was certainly South West rather than South East.

I heard no sound and detected no movement in this array of lights. It appeared to be stationary in the sky below cloud cover which I estimated at about 10/10ths stratus. The sighting lasted for about 2 minutes, suggesting to me that I was not observing an aircraft in (for example) the Heath Row circuit.

I can make no estimate of distance. But the angular dimensions of the object were (approximately):-

- a. About one sixth of the diameter of the moon for each of the three lights (viz. five or six minutes of arc).
- b. About five or six diameters between each of the three lights, viz. each side of the equilateral triangle must have been of the order of 40 or more minutes of arc.

As a former member of the British Astronomical Association (which I only recently relinquished on moving to London, where telescopic observation is impossible) and as an ex-RAF navigator, I rather doubt that I am easily deceived by aerial phenomena. My distinct impression is that I perceived an event for which no ready explanation is possible in wholly conventional terms. Astronomical phenomena are, I think, ruled out by the extensive cloud cover as well as by the very regular, triangular formation of the three lights seen. And aircraft lights seem a very unlikely explanation.

In view of the impossibility of estimating a precise distance for the sighting, I was not able to answer the questions put to me by the Operations Room and again by the Duty Desk at the MOD Main Building, Whitehall, about whether the sighting was near to high-power voltage lines, bodies of still water or a local town. There is a reservoir near Elstree; high-voltage lines are endemic in Hertfordshire; and the county abounds in towns. But I can give you only the angular dimensions of the object(s) seen; and the precise distance must remain

a matter of speculation.

I would like to add that I was greatly heartened, as an ex-MOD official, to discover that serious attention is being paid to events in British airspace, not only by the Duty Desk in Whitehall but also by yourselves. I am most grateful for the courtesy with which my report was received. I am, of course, well aware that the Flying Complaints Flight has the thankless task of responding to members of the public who feel, rightly or wrongly (and perhaps often wrongly !) that uncovenanted military flying has taken place in their local areas. I would like to stress that I am most certainly not making a complaint. I merely hope that my own observation has contributed to your surveillance.

I would, of course, be most interested to know (within whatever limits of security you must observe) what interpretation is placed upon my report and what expert evaluation of it has been made of it by other authorities beyond your own unit.

Yours sincerely,

Section 40

Section 40

PS: A quick call by you to Civilian Management at the MOD would confirm that I served in the MOD from 1949 to 1977, retiring in the grade of Under Secretary, and that I also served as aircrew in the RAF from 1941 to 1946.

11

ANNEX A TO  
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

|    |   |  |
|----|---|--|
| A. | Date, Time & Duration of Sighting   | 24 May 85, Between 2000 - 2030Z for about 2 to 3 minutes                                   |
| B. | Description of Object (No of objects, size, shape, colour, brightness)  | Slightly odd. Saw a triangle of light, self illuminated. Equilateral, colour yellow/silver |
| C. | Exact Position of Observer Location, indoor/outdoor, stationary/moving  | Cowley Hill, SE of Shenley between St Albans and Borehamwood. In garden of friends house.  |
| D. | How Observed (naked eye, binoculars, other optical device, still or movie)  | Naked eye.   |
| E. | Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)   | SE towards Elstree Village   |
| F. | Angle of Sight (Estimated heights are unreliable)   | 35 - 40° Elevation   |
| G. | Distance (By reference to a known landmark)   | No real idea.  |
| H. | Movements (Changes in E, F & G may be of more use than estimates of course and speed)   | No movement which caught his attention, different to aircraft.                             |
| J. | Met Conditions during Observations (Moving clouds, haze, mist etc)  | Fairly clear below St Cu at about 3-4000' Sighting below cloud.                            |
| K. | Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting) | Large reservoirs nearby  |

|    |   |  |
|----|---|--|
| L. | To whom reported (Police, military, press etc)  | MOD AFDO, Sqn Ldr <b>Section 40</b>  |
| M. | Name & Address of Informant                     | Mr <b>Section 40</b><br><b>Section 40</b>  |
| N. | Background of Informant that may be volunteered | Ex RAF Navigator, ex MOD, left service 1977,   |
| O. | Other Witnesses                                 | Yes, but possibly only one.  |
| P. | Date, Time of Receipt                           | 242245Z May 85   |
| Q. | Any Unusual Meteorological Conditions           | No   |
| R. | <u>Remarks</u>                                  | The observer was very keen to make report but only did so after much consideration. He was grateful for the opportunity to unburden himself. |

Section 40

15/4

RECORDED BY JAMES W. HARRIS, FBI, PHOENIX, ARIZONA, ON APRIL 11, 1968, AT THE REQUEST OF THE PHOENIX POLICE DEPARTMENT.

INTRODUCTION

On April 11, 1968, James W. Harris, FBI, Phoenix, Arizona, recorded a conversation between James E. Jackson, alias "Big Jim," and James W. Jones, alias "Commander," at the Peoples Temple Church, San Francisco, California. The purpose of the recording was to obtain information concerning the activities of the Peoples Temple Church.

At approximately 10:00 A.M., James W. Jones, alias "Commander," arrived at the Peoples Temple Church, San Francisco, California, and was received by James E. Jackson, alias "Big Jim."

RECORDED BY JAMES W. HARRIS, FBI, PHOENIX, ARIZONA, ON APRIL 11, 1968.

**REPORT OF SIGHTING OF UFO - **Section 40** - OCT 1982**

Reference:

A. **MAN/135/Sy dated 23 Jan 1985**1. Reference A contained an account of a sighting of an alleged UFO in Oct 82 by a **Section 40** along with some film negatives.2. Since **Section 40** visit to this Unit and the handing over to me of the negatives I have received numerous telephone calls from **Section 40** asking me what was the outcome of sending the reported sighting to you.3. I have pointed out to the **Section 40** that these matters take time and further that they should not necessarily expect a reply.4. Despite these assurances the **Section 40** have persisted in contacting me and have recently requested the return of the film negatives.5. I would be grateful if someone could please reply to them or if this is not possible, the negatives could be returned to this Unit for return to the **Section 40**.**Section 40**Fg Off
